

**Inter Agency Teams with the
Workforce Development Council, OC, CSO, DVR and ESD- WorkFirst**

Model One

The model calls for:

- ❑ The CSO case managers are a foundational base with contact staff for the case managers with the limited partner staff
- ❑ Uses the concept that the partner staff (Workforce Development Council, OC and ESD) would not be part of all the cases rather would be “case staffed” as needed by the CSO case managers- based on the customer need as relative to the services offered by the partner agency.
- ❑ Accountability and knowledge of all partner performance measures as each team member would need the knowledge of the performance measures to ensure efficient and appropriate staffings
